

ASK ABOUT NEW MASKS ARRIVING THIS SUMMER.

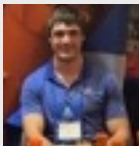

Happenings

As things being to open up around the country we are hitting the road and visiting job sites and stores.

Who we are

Vayle Townsend :

A 2019 graduate from Fort Lewis College in Durango CO, he joined B&L as an engineer soon after. Look for him underground, as well as above, providing a wealth of knowledge on all types of drilling projects.

Ask Rocky?

Can I use this Bushing Tool to tenderize meat?

Noooooo! Well, you could, but we do not recommend.

Bushing Tools are used to level or roughen uneven floors or walls prior to refinishing.

The Duckworth's

Paul Duckworth and his wife Lindsey are both retiring from B&L wrapping up a combined 90 years of service to the company. Paul started at our sister company in Sheffield as an apprentice in 1974 before moving to the states in 1997 as a production manager in Franklin Park. Lindsey's journey began similarly as a clerical worker in the office overseas, before marrying Paul and beginning their lives together as well as their lives with us.

General Manager David Bullifent presents Paul with a gift on the day of his retirement after almost 50 years of affiliation with the Brunner family. We wish both Paul and Lindsey the best as they take the next steps in their retirement journeys.
